66T HE BIG HEAD," dearly beloved, is a disease that attacks men and horses. It is generally fatal to both man and beast.

A curious phase of the disease is that it seldom if ever attacks "a choroughbred," either horse or human. Most men bear adversity well. They have to. But the true acid test of character is shown in how they

To every man comes opportunity. Those who can pitrob above the timber line on the Mountain of Success without getting dizzy keep on climbing till they reach the top.

The victim of big head from sudden emergence into he higher altitudes has a sudden rush of importance to the brain. He hinks of himself, talks of himself and gets no higher. Some times, in act, he falls back into the mud whence he came.

The man afflicted with nervous prosperity has no sense of color or proortion. He achieves notoriety and thinks it fame, he imagines he breaks he monotony of the skyline with the pinnacle of his importance, when it may be that the casual observer would not notice his presence while view-

Having a good opinion of one's self may be the desirable sort of selfsteem. Thinking others have it of you is egotism.
